DAE Hospital,
Kalpakkam - 603 102

Ref: GSO/HOSP/MS/COVID-19/Fever Clinic/2020/

18th July, 2020

Sub: Fever clinic of DAE Hospital Kalpakkam and Anupuram- reg

It has been **observed recently** that some patients are **coming with 4; 5 day's symptoms** of fever, cough, sore throat, loose motions and becoming more sick.

Therefore, all are requested **to come early in a day or next day** to fever clinic so that recovery gets early and become healthy. Many have expressed that due to fear of COVID delaying to attend fever clinic but delay in fact worsen the condition. So, it is wiser to come early to health care facility than delay.

Majority are getting well with supportive medication and self care. Also usage of mask, social/ physical distancing 5 feet, hand washing / hand sanitisation are essential method of preventing COVID 19. During this COVID pandemic **every individual's participation and self awareness** are very important as well as essential to control COVID-19 to near zero or zero.

Looking forward **your / our co-operation** to achieve success.

Stay safe, stay healthy.
