DAE Hospital, Kalpakkam had been receiving many representations regarding delay in reimbursement of bills for Chennai beneficiaries. To mitigate this situation an arrangement is made by which medicines will be couriered to the residential address of Chennai CHSS beneficiaries. To avail this facility the following procedure is devised:-

1. Beneficiaries need to submit the original prescription along with filled in pharmacy forms with detailed address and mobile number for communication at DAE Clinic.
2. While submitting the form the beneficiary is advised to use the form as a guide meant for this purpose.
3. The out sourced pharmacy will courier the medicines directly to the beneficiaries at Chennai, based on prescription received from CHSS clinic Pallavaram.
4. The out sourced pharmacy representative will collect the prescription on alternate days from CHSS clinic Pallavaram
5. Drugs requiring cold chain maintenance are not to be home delivered by courier.

The scheme will start functioning from 18 Aug 2025
